Profile

React/React Native Developer with 4.5 years of experience in building effective web and mobile applications. Experienced in turning user needs into working features and handling complex UI/UX tasks. Proven ability to work with diverse teams to create scalable and reliable solutions.

Experience

Software Engineer, Coditas, India — September 2022 - Present

- Collaborated on a platform enabling rights holders to engage with advertisers and suppliers for international matches.
- Independently implemented an SVG-based drawing tool, empowering users to annotate media files. This feature received significant praise from the client for its functionality and user experience.
- Integrated RESTful APIs to facilitate seamless data communication between the front-end and back-end services.
- Mentored junior developers, conducted code reviews, and ensured adherence to best practices and coding standards.

Software Engineer, Roxiler Systems, India — June 2021 - September 2022

- Designed and developed a mobile application recognised in Google's Best Android Apps of 2021 for India, honoured in the 'Best Apps for Good' category, with over 500,000 users.
- Created application where users can book and attend online LIVE sessions and workshops that specially curated for older adults. Worked on Admin panel from where coordinators can easily create and schedule new events/ course sessions.
- Created RESTful APIs in Node.js for specific application features, ensuring efficient data handling and integration with the front-end.
- Possess comprehensive knowledge of the process for releasing iOS applications on the App Store.

React Native Developer, Thumbtack Technologies, India — March 2020 - June 2021

- Developed a video conferencing application using React Native, supporting up to 100 users per conference on both iOS and Android platforms.
- Integrated React Native WebRTC for real time video, audio and generic data.
- Gained experience in implementing a native module within React Native for WebRTC screen sharing functionality on iOS.

Consultant Engineer (Embedded Engineer), T & M Services Pvt. Ltd, India — March 2018 - March 2019

- Experience of working on different projects related to surveillance system like electric fence and access card
- Installed and maintained surveillance systems on-site, ensuring optimal performance and reliability.

Education

Bachelor's of Engineering

August 2014- August 2017

Vidyalankar Institute of Technology, Mumbai, India

Specialisation - Electronics and Telecommunication

Diploma

July 2011- June 2014

St. Xavier Technical Institute, Mumbai, India

Specialisation - Electronics and Telecommunication

Skills

- Front-End: React.js, Redux, Next JS, JavaScript (ES6+), TypeScript, HTML5, CSS3, Sass, Socket
 - Back-End: Node.js, Express.js, RESTful APIs
 - Databases: PostgreSQL
 - Version Control: Git, GitHub, GitLab, Bitbucket
 - Build Tools: Webpack, Babel, NPM, Yarn
 - Other: Agile/Scrum, CI/CD, Responsive Design, Web Accessibility, JIRA
-
